We continue on our way to discover the Litoral Argentino, and now we move on to discover the fantastic Iguazu Falls, we will visit this incredible National Park declared a World Heritage Site and one of the 7 Natural Wonders of the World, the incredible thing about this tour is its proximity to the waterfalls from the walkways, we will also make a beautiful ride in rubber boats going into these incredible falls.

If you'd like to extend your tour, you can choose to continue the route to Jujuy, we will visit the "Quebrada de Humahuaca", the seven colors hill, and we will get in touch with the customs of the locals, we will taste their food, we will get to know their handmade products and their way of living in these beautiful lands. We will cross the winding slope of Lipan until we reach the wonderful salt flats, the second largest in the world at over 4000 meters above sea level. We leave for Salta with a strong Argentinean folkloric tradition, we will visit one of its famous "peñas", where we will be served typical food, we will know typical dances with live music and where you can participate.

We will also visit a typical northern farm where we will enjoy horseback riding, walks, and the hospitality of the owners.

We continue our journey! We arrived at the "Quebrada de las Conchas" on the way to Cafayate, a place of incredible lands, and landscapes full of colors.
